

SAFE DEPOSIT LOCKERS

MOEM Safe Deposit Lockers offer a unique method for depositors to store their irreplaceable items of value. Items of value may include important confidential documents, jewelleries and other items which may be sentimental. Safe Deposit Lockers are most commonly used in banks and hotels. Safe Deposit Lockers are usually placed in a secured environment that allow depositors to have a peace of mind.

FEATURES

CONSTRUCTION

MOEM Safe Deposit Lockers are constructed with solid steel to ensure rigidity of the door and body. Safe Deposit Lockers (Exterior door and body) are then laminated with stainless steel to further enhanced exterior look and feel.

The chrome finish door hinge is designed with an interlocking system.

DUAL CONTROL LOCKING SYSTEM

MOEM Safe Deposit Lockers are fitted with 7-lever high security dual control locks with 2 key holes. One key is for guardian and the other for renter or depositor. Both guardian and renter have to be present to unlock the safe deposit. To lock, only one key (renter) that is required. The renter key cannot be removed without locking the safe deposit door.

MOEM Safe Deposit Lockers are available in a variety of box sizes to suit individual needs.

5" x 5" x 24" (24 boxes per section)

3" x 10" x 24" (18 boxes per section)

5" x 10" x 24" (12 boxes per section)

10' x 10" x 24" (6 boxes per section)

*other sizes as special

*refer drawing

*sections are able to be stacked for various combinations

*kindly refer representative for stacking configuration

*inches measurements are used as guide or easy reference

INNER BOXES

All standard size lockers (as listed above) come complete with a steel inner box. Each inner box is fitted with padlocking hasp that enables the renter to use their own padlock for added security.

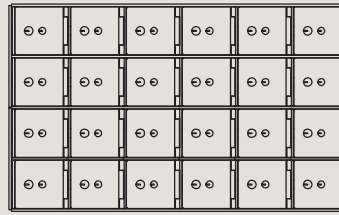

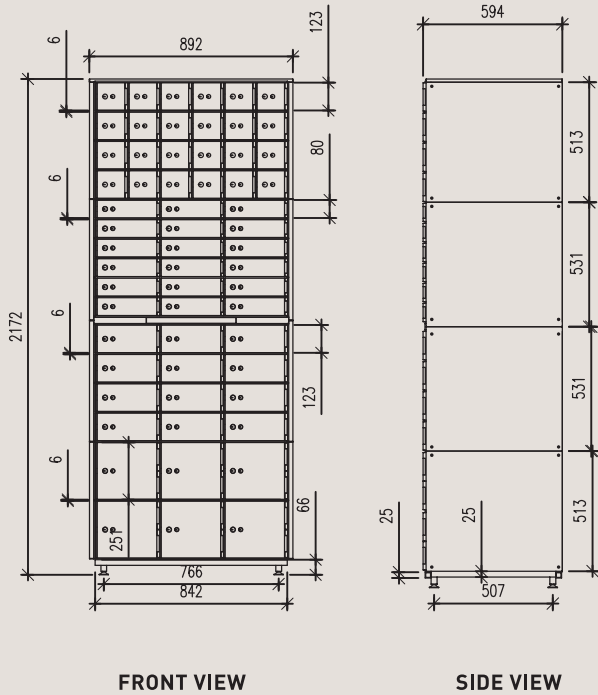

PULL-OUT SHELF

Pull-out shelf with magnetic retriever can also be incorporated as an accessory.
